BASIC ORGANIC FERTILIZER

ORGA/
BASE/K

ORGA/BASE/K

ORGA/BASE/K is a pleasantly priced organic fertilizer in pellet form (4-5mm) which is particularly suitable for fertilizing horticultural and agricultural crops with a high demand for potassium. As well as a high content of K_2O , this fertilizer provides all essential main and trace elements.

The optimal supply of nutrients and humus

ORGA/BASE/K is made of 100% organic raw materials only. The fertilizer is low in chlorine.

ORGA/BASE/K has a high content of organic matter which is essential for the maintenance of soil fertility. The organic matter improves the moisture retaining capacity of the soil, stimulates the soil activity and improves the structure of the soil. It gradually releases its nutrients during the growing season of the plant. This prevents nitrogen from leaching.

EFFECTS OF POTASSIUM

- Improves osmotic turgor
- Optimizes hardiness of the plant
- Increase of resistance of the crop

Average analysis

[%]

Dry matter (DM)	90
Organic matter (OM)	70
Nitrogen (N) total	3.0
Nitrogen (N) organic	2.8
Phosphate (P_2O_5)	3.0
Potassium (K_2O)	6.0
Magnesium (MgO)	1.0
Sulphur (S)	0.7
Calcium (CaO)	2.3
pH appr.	9.0
C/N appr.	13

Dosage

[kg/ha]

Vegetables - open field	1.500 - 3.000
Vegetables - glass houses	2.000 - 3.000
Fruit trees	1.500 - 3.000
Soft fruit	1.500 - 2.000
Strawberries	1.500 - 2.000
Citrus	1.500 - 3.000
Wine growing	1.500 - 2.000
Flowers	1.500 - 3.000
Tree nurseries	1.500 - 2.000
Potatoes	2.000 - 3.000
Lawn & Sports turf	1.500 - 2.000

The fertilizer dosage depends on the crop, the type of soil and its nutrient and organic matter content and climate conditions.

Application

Can be applied by fertilizer spreader or by hand.

Prior to sowing / planting:

- Apply pellets approx. 10 days before
- Work pellets in properly and water thoroughly

Use in planted areas:

- Top or row fertilization: 15-20 cm from the roots of the plant
- Apply pellets before rain or water in after spreading
